ASSASSINATION OF PRINCE ITO A REVENCEFUL KORFAN AT

Other Members of the Japanese Party Are Wounded --- Tokio Is Startled by the News of Killing---Ito a Great Statesman

Harbin, Oct. 26 .- Prince Hirobumi to was assassinated at the Tsaitsagan railway station here today at the moment the Japanese diplomat was acknowledging the noisy welcome that had greeted him as he stepped down from the coach that he had occupied in the railroad train. Smiller and in the railroad train. Smiling and bowing he turned to make his way toward the Russian finance minister, M. Koku soff, who was awaiting him on the station platform a few paces

Siddenly a half-dozen revolver shots fired in quick succession were heard, followed by the cries of those standing near the prince, who had either been wounded or imagined themselves to be. At the second report Prince quently found that he had received three bullets, two of which entered the abdomen. Prince Ito did not re-cover consciousness and died twenty minutes later.

The fusilade of shots threw the crowd into a panic, and it was some time before it could be determined who, besides the prince, had suffered. When the excitement had somewhat subsided it was found that three other members of the party on the platform had been injured.

Prince Ito's private secretary re-ceived a bullet, as did Japanese Consul General Kawakan and General Manager Tanaka of the South Manchurian railwy, who had moved closer to the prince as the firing began. It is thought that these three are not mortally wounded.

The perpetrator of the outrage was not hard to locate, as he stood defiantly in the crowd, revolver in hand. He proved to be a Korean, and, with two companions of the same nationality, boasted of a conspiracy to take the life of the former resident general of Korea in satisfaction for the alleged tyranny of the prince over korea. The police pounced upon the three Koreans, the one who did the shooting exclaiming dramatically:

"I came to Harbin for the sole pur-pose of assassinating Prince Ito to

avenge my colntry."

None of the three Koreans attempted to escape. The assassin, while claiming to have been inspired by a patriotic motive, and to believe that Japan's wrongs to Koreans justified his act admitted under examination that he had a personal grudge against the Japanese statesman, who, while resdent general in Korea, had caused the execution of several of the mur-derer's friends. It had been supposed that the protection for the prince was adequate, but the police stated later that they were unable to distinguish the Koreans among the many Japan-ese who had been admitted to the railway station to welcome the prince.

Prince Ito had come to Harbin to

meet M. Kokovsoff, the Russian min-ister of finance, for what was believed be an important conference. The conference was suggested by Prince Ito in his capacity as president of the privy council of Japan.

The subjects to be discussed were not definitely known to the public, but they were supposed to concern affairs of administration in Manchuria. Kokovsoff had before declined an invita-tion to visit Japan for such a conference, and Harbin was agreed upon as a meeting place. In accepting the invitation, the Russian minister said political questions must be barred, as he was competent only to discuss fiscal and technical subjects, these concerning the statls of the Mancherian railroad. The conference had been widely anonunced in advance, and it was generally known when the diplomats would reach Harbi.

Harbin, Manchuria, Oct. 26.-Prince Hirobumi Ito, former Japanese resident general of Korea and probably Japan's foremost statesman, was assessinated here this afternoon (Tuesday) day) by a Korean who had followed him here for the express purpose of

The motive of the assassin was revenge. The assassin was arrested.

Almost immediately on his arrival here, and just as Prince Ito left the railroad car at the station, the attack

was made upon him.

The venerable statesman, accompanied by Russian Minister of Finance Kokovsoff, was starting to inspect the guard of honor drawn up along the platform, when a pistol shot was heard. Several more shots were fired in quick succession, the bullets striking the prince in the back.

Prince Ito fell, mortally wounded.
Three of the prince's companions also were wounded, bullets striking Japanese Consul General Kawakan.

Japanese Consul General Kawakan,
General Manager Tannaka of the
South Manchurian railway, and
Price Ito's private secretary. Consul General Kawakan is badly but
and fatally injured, it is believed.
The assassin was promptly seized.
On being questioned, he said he was

"I came to Harbin for the sole puravenge my country," the slayer told his captors. He said he had a personal account to settle with the great Japanese statesman who, during his stay in Kores, had ordered the execution of several persons closely connected with the assassin.

Ito, were on the lookout for suspicious characters, yesterday arrested three Koreans who were at the sta-tion and found to be armed with revolvers. However, the task of guarding the prince was rendered difficult by reason of Japanese Consul General Kawakan's request that the raffway officials permit all Japanese to enter the station to greet the prince. The police point out that it was quite impossible to distinguish Koreans

from Japanese by their appearance.

The Russian minister of finance, M. Kokovsoff and the Russian military authorities accompanying Prince Ito were exposed to the same danger from flying bullets as was the prince. Indeed, Kokovsoff was nearer to the Japanese envoy at the time of the shooting than were those who were

Had the assassin delayed shooting for a moment, the foreign consuls would have been in much danger as Ito was approaching them and they would have been directly in the line of fire

The body of the slain statesman has already been removed homeward. The casket before it was placed upon the train was covered with flowers sent

As Disclosed by a Girl's Most Desperate Plight.

New York, Oct. 26 .- Earl W. Spencer, with an office in the Rookery building, Chicago, has written to the Flower hospital in this city, offering to pay the passage of Miss Edith Thomas to her home in Sherbrooke, Quebec. Miss Thomas is the young woman who last week attempted to commit suicide after writing a patheletter to her mother saying that the fight to exist in New York and be good was too great, and that she referred death to being bad.
The publication of the letter brought Miss Thomas many new friends, who have already provided for her immediate future and as she has left the hospital, Mr. Spencer's generosity has been declined.

Pictures of the Johnson-Ketchel Fight Attracts Him.

New York, Oct. 26.-James J. Jeffries and his manager, Sam Berger, have engaged the same two seats for every afternoon in the week in the theater where the moving picturs of the Jack Johnson-Stanley Ketchel prize fight are being exhibited. Jef-fries did not attend the first showing of the fight pictures yesterday in this city, because of the crowds which besieged the place, but Berger states that the "undefeated champion of the world" will study the pictures minutely for the purpose of learning as much as possible about the ring tactics of the negro champion, whom he has promised to fight for the title.

Jeffries has been informed that Johnson, although he has not heard from him direct, will arrive here from Chicago on Thursday, and Berger has made arrangements to bring about a quick conference between the con-tenders for the purpose of arranging and signing articles of agreement to

Every Class of Athletes Except Ball Players Are Involved.

Little Rock, Ark., Oct. 26.—According to charges made against the Maybray gang, under arrest in Iowa, for alleged swindles in various parts of the United States, prize fighters, wrestlers, turfmen, foot-racers and almost every class of athletes, except baseball players, have been en-gaged in gigantic deals for several years, fleecing the victims of various amounts, totalling above a million. "The scope of the Maybray gang is far reaching and some prominent people will be involved before long," says United States Inspector J. S. Swanson. "We have evidence tending to show that a majority of tha wrestling matches are framed up be-fore the men weet and that many boxing bouts are pre-arranged to catch the sucker. There will be at least half a hundred fighters now be-fore the public that will be drawn into cases against Maybray and this gang, who seem to have worked from coast to coast.

CHINESE COLONIES TO BE ESTABLISHED IN TEXAS But Still Too Remote

San Antonio, Texas, Oct. 26 -- If the plans of Wu Ting Fang, Chinese min-ister to the United States, work out, Chinese colonies will probably be established in Texas. The minister, en route to Mexico City, took occasion to discuss what he had seen of Texas. When I saw the fine fields of grow ing grain as I entered the state," Dr. Wu said, "I thought of my countrymen in the crowded and frozen north of the United States, and I have been wondering why more do not come to Texas where rice can be grown. If possible I will stop on my return trip and investigate conditions for purpose of colonizing Chinese here.

AVIATOR FALLS TWENTY FEET

Doncastle, England, Oct. 26 .- At the aviation meeting yesterday, Mr. Leb-lon fell twenty feet, but was not hurt, His machine was wrecked.

His fall was an act of self-sacrifice. He was flying at a low elevation when the wind suddenly whirled the machine around and drove it toward the spectators. Leblon had only one instant to choose, rising almost vertically at great risk of himself, or of crashing into the onlooks without harm to him. He choose the former

There was barely room between the machine and the crowd for the aeroplane to rise, but Leblon's prompt manipulation of the gear just enabled it to do so and it cleared the heads of the spectators, whisking off the hats of men in the front row.

to Be Seen With the Naked Eye.

New York, Oct. 26 .- Halley's comet s now so near the earth that it may be observed in a short time through an ordinary telescope, according to re-ports received from different astronomical observatories.

Although it has been speeding to ward the earth with a tremendous velocity ever since it was first redis-covered on the night of September 11, it is still far too remote to be seen with the naked eye. But Harvard colobservatory has issued a bulletin stating that Prof. E. E. Barnard of the Yerkes obsservatory obtained vis-ual observations of it on the 17th and 19th of this month. On these two dates Prof. Barnard found that the comet was not fainter than the 131magnitude, having a diameter of 13 1-2 magnitude, having a diameter of 15 seconds, and while it exhibited no elongation, it "was less definite and brightening in the middle."

WOMEN OF DENVER IN DIVORCE CLUB

According to the report received at the office of Superintendent Manson, Delaney and one of the other employes, engaged in the building of the oil storage tank, had just quit work, and were going to the boarding house. They engaged in a friendly bout and then started to run. De-laney ran across the turntable and fell into an ash pit, which was about three feet deep. His friend, who was pursuing him, seeing him fall was soon at his side and, with other em-ployes, lifted the injured man out of the pit and carried him to the depot, where he was placed upon a train.

No blame is attached to any of the employes for the accident.

TOKIO IN GLOOM.

Tokio, Oct. 26.-Gloom prevails in the city following the receipt of the news of the assassination of Prince Ito at Harbin. Details were lacking tonight and were eagerly awaited. It is said the prince received three wounds.

When the foreign office received the news it immediately notified the cabi-net, many of whom hastened to the foreign office. These included Gen-Terauchi, the minister of war. The Princess Ito was notified at Oise, their country home, of the death of her husband. Their eldest son, Hirokuni Ito. is in London. A younger son, Bunkichi, is engaged to a daughter of Premier Katsura. The foreign office is besieged by inquiries, these including all the diplo

mats accredited to Japan, among whom the prince was popular.

STORY OF UNCOVERING AMERICAN PLOT DENIED

Salt Lake, Oct. 25 .- Parley P. Jenson, secretary of the Republican city committee, and Ben T. Lloyd, chairman of the Citizens-Democratic com-mittee, deny a story to be printed in the Smoot Hemorrhage to the effect that a plot had been unearthed by which Americans intended to attempt to keep the names of furion candi-dates off the tickets in the third and fourth wards. Mr. Jenson said his committee had no complaint to make of the officials who had done their best to see that the law was complied with. "They pointed out some slight irregularities," said Mr. Jenson. "These were remedied and the tickets were filed. That settles the whola matter.

matter. Mr. Lloyd said that City Attorney Dinninny and City Recorder Moreton had treated his committee with every courtesy and fairness, calling attention to some slight matters in connec-tion with the ticket that were at once adjusted."

The city recorder has been at great

pains in connection with the filing of the tickets, which, owing to fusion attempts, have been somewhat com-plicated. He has assisted the com-mittees of each party in every way in his power and the city attorney has been at hand to advise in each case as to how the tickets and certificates should be drawn. The result is that JAMES DELANEY BREAKS HIS

LEFT LEG.

The plot uncovered by the Hemorrhage is on the same plane with its other campaign stories, including those of illogal registration, manufactured from whole cloth.

SEEK SEPARATION AFTER THIRTY YEARS

Salt Lake, Oct. 25.—After more than thirty years of married life Jas. and Anna Meier found that they could no longer live together and decided to separate, Judge C. W.
